Ovaj dokument sadrži slikovne prikaze o podešavanju virtualizatora VirtualBox i instalaciji Windows 10 operativnog sustava.
Welcome to VirtualBox!

The left part of this window is a list of all virtual machines on your computer. The list is empty now because you haven't created any virtual machines yet.

In order to create a new virtual machine, press the **New** button in the main toolbar located at the top of the window.

You can press the **F1** key to get instant help, or visit [www.virtualbox.org](http://www.virtualbox.org) for the latest information and news.

In order to create a new virtual machine, press the New button in the main toolbar located at the top of the window.

You can press the F1 key to get instant help, or visit www.virtualbox.org for the latest information and news.
Name and operating system

Please choose a descriptive name for the new virtual machine and select the type of operating system you intend to install on it. The name you choose will be used throughout VirtualBox to identify this machine.

Name: 

Type: Microsoft Windows

Version: Windows XP (32-bit)
Create Virtual Machine

Name and operating system

Please choose a descriptive name for the new virtual machine and select the type of operating system you intend to install on it. The name you choose will be used throughout VirtualBox to identify this machine.

Name: 
Type: Microsoft Windows
Version: Windows XP (32-bit)
Windows 7 (64-bit)
Windows 8 (32-bit)
Windows 8 (64-bit)
Windows 8.1 (32-bit)
Windows 8.1 (64-bit)
Windows 2012 (64-bit)
Windows 10 (32-bit)
Windows 10 (64-bit)
Other Windows (32-bit)
Other Windows (64-bit)
Name and operating system

Please choose a descriptive name for the new virtual machine and select the type of operating system you intend to install on it. The name you choose will be used throughout VirtualBox to identify this machine.

Name: Windows 10
Type: Microsoft Windows
Version: Windows 10 (32-bit)
Memory size

Select the amount of memory (RAM) in megabytes to be allocated to the virtual machine.

The recommended memory size is **1024 MB**.
Hard drive

If you wish you can add a virtual hard drive to the new machine. You can either create a new hard drive file or select one from the list or from another location using the folder icon.

If you need a more complex storage set-up you can skip this step and make the changes to the machine settings once the machine is created.

The recommended size of the hard drive is **32.00 GB**.

- [ ] Do not add a virtual hard drive
- [x] Create a virtual hard drive now
- [ ] Use an existing virtual hard drive file

Empty

< Back  Create  Cancel
Hard drive file type

Please choose the type of file that you would like to use for the new virtual hard drive. If you do not need to use it with other virtualization software you can leave this setting unchanged.

- VDI (VirtualBox Disk Image)
- VMDK (Virtual Machine Disk)
- VHD (Virtual Hard Disk)
- HDD (Parallels Hard Disk)
- QED (QEMU enhanced disk)
- QCOW (QEMU Copy-On-Write)
Storage on physical hard drive

Please choose whether the new virtual hard drive file should grow as it is used (dynamically allocated) or if it should be created at its maximum size (fixed size).

A **dynamically allocated** hard drive file will only use space on your physical hard drive as it fills up (up to a maximum **fixed size**), although it will not shrink again automatically when space on it is freed.

A **fixed size** hard drive file may take longer to create on some systems but is often faster to use.

- Dynamically allocated
- Fixed size
File location and size

Please type the name of the new virtual hard drive file into the box below or click on the folder icon to select a different folder to create the file in.

Windows 10

Select the size of the virtual hard drive in megabytes. This size is the limit on the amount of file data that a virtual machine will be able to store on the hard drive.

4.00 MB  2.00 TB

32.00 GB
File location and size

Please type the name of the new virtual hard drive file into the box below or click on the folder icon to select a different folder to create the file in.

Windows 10a

Select the size of the virtual hard drive in megabytes. This size is the limit on the amount of file data that a virtual machine will be able to store on the hard drive.

64.00 GB

4.00 MB  2.00 TB

Which type of installation do you want?

**Upgrade: Install Windows and keep files, settings, and applications**
The files, settings, and applications are moved to Windows with this option. This option is only available when a supported version of Windows is already running on the computer.

**Custom: Install Windows only (advanced)**
The files, settings, and applications aren’t moved to Windows with this option. If you want to make changes to partitions and drives, start the computer using the installation disc. We recommend backing up your files before you continue.

Help me decide
U instalaciji OS korištena su dva fizička diska (Drive 0 i Drive 1). Na svakom od njih treba izraditi particije prema unaprijed pripremljenom planu, što znači da će se prema već spomenutoj preporučenoj tablici na svakom od diskova izraditi dvije particije.
Ako se koristi samo jedan fizički disk (Drive 0), analogno već navedenom, preporuka je na njemu treba izraditi četiri particije.

Welcome to the Oracle VM VirtualBox Guest Additions 4.3.30 Setup Wizard

This wizard will guide you through the installation of Oracle VM VirtualBox Guest Additions 4.3.30.

It is recommended that you close all other applications before starting Setup. This will make it possible to update relevant system files without having to reboot your computer.

Click Next to continue.
Choose Install Location
Choose the folder in which to install Oracle VM VirtualBox Guest Additions 4.3.30.

Setup will install Oracle VM VirtualBox Guest Additions 4.3.30 in the following folder. To install in a different folder, click Browse and select another folder. Click Next to continue.

Destination Folder
C:\Program Files\Oracle\VirtualBox Guest Additions

Space required: 3.1MB
Space available: 12.8GB

VirtualBox Windows Additions 4.3.30

< Back   Next >   Cancel
Choose which features of Oracle VM VirtualBox Guest Additions 4.3.30 you want to install.

Check the components you want to install and uncheck the components you don't want to install. Click Install to start the installation.

Select components to install:
- VirtualBox Guest Additions
- Direct3D Support (Experimental)

Space required: 3.1MB

Welcome to the New Simple Volume Wizard

This wizard helps you create a simple volume on a disk.

A simple volume can only be on a single disk.

To continue, click Next.
Specify Volume Size
Choose a volume size that is between the maximum and minimum sizes.

Maximum disk space in MB: 44533
Minimum disk space in MB: 8
Simple volume size in MB: 44533

< Back  Next >  Cancel
Assign Drive Letter or Path

For easier access, you can assign a drive letter or drive path to your partition.

- Assign the following drive letter:  
- Mount in the following empty NTFS folder:  
- Do not assign a drive letter or drive path

Next >
New Simple Volume Wizard

**Format Partition**
To store data on this partition, you must format it first.

Choose whether you want to format this volume, and if so, what settings you want to use.

- Do not format this volume
- Format this volume with the following settings:
  - File system: NTFS
  - Allocation unit size: Default
  - Volume label: Data

- [ ] Perform a quick format
- [ ] Enable file and folder compression

[< Back][Next>][Cancel]
Completing the New Simple Volume Wizard

You have successfully completed the New Simple Volume Wizard.

You selected the following settings:
- Disk selected: Disk 0
- Volume size: 44533 MB
- Drive letter or path: E:
- File system: NTFS
- Allocation unit size: Default
- Volume label: Data
- Quick format: Yes
- Enable file and folder compression: No

To close this wizard, click Finish.

**Informatička abeceda** - Elektronički udžbenik u HTML formatu kojemu je osnovna osobitost sadržaja koje opisuje - Informatika. Obrađeno je mnogošća IT pojmova od brojevnih, računalnih i operativnih sustava do računala i računalnih mreža. Opis pojedinih pojmova nadopunjuju primjeri iz prakse kako bi bili jasniji, kao što su kućne računalne mreže (SOHO) i Internet. Pogodnosti HyperText-a iskorištene su da se spojnicama međusobno povezuju stranice sa srodnim opisima, te indeksna stranica pojmova koja sa spojnicama vodi prema odgovarajućim stranicama pripadnim pojm. Prema kvalitetnim sadržajima na drugim sjedištima vode spojnice sa samih stranica ili s zasebne stranica sa spojnicama, te je udžbenik svojevrsna jezgra koju obogaćuje Internet okoliš. Informatika je postala realna stvarnost, a možda i odrednica budućnosti. Za mlade naraštaje sva saznanja iz ovog područja stoga su dobrodošla.

**IT - Informatics Alphabet** - Translated into English previously mentioned HTML electronic book of Informatics (IT - Information Technology). Processed multitude IT concepts of numeric, computer and operating systems to computers and computer networks. Descriptions of these terms are supplemented by examples from practice to make clear, such as a home computer network (SOHO) and the Internet. Benefits of HyperText are links that interrelate pages with related descriptions, and index page of notions that the joints leads to the corresponding pages associated notion. Towards quality contents on other sites link connectors from alone pages or separate pages with links, thus this e-book is some kind of nucleus that enriches the Internet environment. Informatics has become a real reality, and perhaps...
